on advanced technologies for large structural systems. 117 ATSS Drive ... SAP2000 version 10.0.0 is used in this study for static and dynamic analysis. 117 Through this study, an assessment of the "selection" and "matching" behavior was achieved, i.e., a set of indicators were identified that are most frequently encountered in the process. Thirty of the most common behavioral problems were selected. 118 A study conducted by Rational Unified Process found that time spent in the "selection and hiring" process was one of the most problematic processes.
